SUMMARY

Motivated B.Tech Computer Science student specializing in Machine Learning and Data Analysis. Experienced in building predictive models, data preprocessing, and model evaluation using Python and Scikit-learn. Passionate about solving real-world problems using AI and seeking Machine Learning internship opportunities.

EXPERIENCE

Computer Society of India (CSI) Student Branch, Nagpur 2025 – Present
Event Manager

- Manage and coordinate technical events, workshops, and student engagement activities.
- Lead event planning, logistics, and cross-team coordination.
- Support execution of tech-focused programs for student members.

Student Performance Prediction Project 2025
Machine Learning Project

- Built a prediction system using a synthetic dataset of 50,000 rows and 11 features.
- Compared Linear Regression, Random Forest, SVR, and KNN models.
- Achieved R^2 score of 0.97.
- Performed preprocessing, scaling, and evaluation using MAE and RMSE.

Diabetes Prediction Model 2025
Machine Learning Project

- Developed a diabetes prediction system using a dataset of 768 records.
- Performed mean and median imputation for missing values.
- Conducted exploratory data analysis using correlation heatmaps.
- Evaluated 7 ML models with 5-fold cross-validation.
- Achieved ROC-AUC score of 0.82 using Random Forest.
- Built an interactive prediction tool using ipywidgets.

EDUCATION

Symbiosis Institute of Technology, Nagpur 2024 – 2028
B.Tech in Computer Science
CGPA: 7.62

SKILLS

- Python Programming
- Machine Learning (Scikit-learn)
- Data Analysis (Pandas, NumPy)
- Data Visualization (Matplotlib, Seaborn)
- Git, GitHub, VS Code, Google Colab

CERTIFICATIONS

- Python Programming Certification — Red Hat
- ServiceNow Internship Certificate
- Springboard Python Certification
